Welcome to the wonderful world
of mobile bookshelves

Make your library
marvellously mobile...

Welcome to the wonderful world of mobile bookshelves!

As fervent advocates for all things literary, we are delighted to share with you the benefits of incorporating these ingenious shelving units into your educational or community library spaces.

Picture this: a bustling library, filled with eager readers perusing the shelves for their next literary adventure. Now, imagine seamlessly rearranging these shelves to create space for events, study groups, or simply to refresh the ambiance of your space. That's the beauty of mobile bookshelves—they offer unparalleled flexibility.

But the advantages don't stop there. With mobile bookshelves, you can easily reorganise your collection to optimise browsing experiences, showcase new arrivals, or highlight thematic displays. This dynamic versatility not only enhances the aesthetic appeal of your library but also fosters a sense of exploration and discovery among patrons.

Moreover, mobile bookshelves promote accessibility by allowing you to bring books closer to your readers, whether they're browsing from a cosy corner or exploring the depths of your library's aisles.

Incorporating mobile bookshelves into your library isn't just a practical decision—it's a commitment to creating a dynamic and inviting space where the love of literature thrives.

So, join us in embracing the magic of mobile bookshelves and watch as your library transforms into a hub of literary delight!

Install Everna™ Motion to match our other Everna™ ranges

Everna™ Discovery book browsers

Book browsers and kinderboxes play a significant role in encouraging browsing and promoting the discovery of new books. They can be used to display a whole variety of reading material. From picture books for younger children, to comics books and graphic novels for teenagers and adults, book browsers are suitable for all of your library users.

Everna™ Mobile book towers

Give your collection the attention it deserves! Everna™ Towers can be used to display a whole variety of reading material. From picture books for younger children, to comics books and novels for teenagers and adults, towers are suitable for all of your library users. You'll grab readers' attention and they'll grab new favourites!
